4.45 – 5.15	<i>Panel Discussion</i>

“CHANGING PERSPECTIVES™”
Evidence Based Practice & Clinical Implications in
Musculoskeletal Therapy
SATURDAY 11th SEPTEMBER 2010
A one-day Conference

SPEAKERS:

Jonathan Flynn BSc (Hons) MCSP, MSc Sports & Exercise Injury Management
Senior Lecturer – University of Huddersfield

Jonathan completed his undergraduate training as a physiotherapist at Leeds Metropolitan University, Leeds. He then worked across several care settings including primary and secondary care within the Yorkshire region, starting as a Junior grade in West Yorkshire at the Leeds Teaching Hospitals NHS Trust before moving to North Yorkshire as a senior member of staff at Harrogate District Hospital NHS Foundation Trust. Jonathan enjoyed accelerated promotion, specialising in manual therapy and neuromusculoskeletal management. Jonathan's MSc in Sports and Exercise Injury Management focussed on specific neuromusculoskeletal training, his dissertation was a systematic review of Achilles tendinopathy, which has been an interest since qualifying as a physiotherapist. Jonathan has undergone extensive post graduate training in all the major paradigms of neuromusculoskeletal medicine. This has included Maitland, McKenzie, Cyriax, McConnell, Kinetic Control, Sahrmann and many other manual therapy based training programmes. In addition to Jonathan's NHS experience he has also worked in the private sector for both independent and large organisations responsible for supplying health care. Finally as part of his role of Senior Lecturer in Physiotherapy he completed his teaching qualification in September 2005. Jonathan also works in private practice and with local sports teams.

Dr Marie-Elaine Grant Dip Physio PhD MCSP SMISCP
Head Physiotherapist to the Irish Olympic Team

Marie-Elaine Grant graduated in Physiotherapy from University College Dublin in 1981 and spent her early postgraduate years at University Hospitals in Europe and the USA. In 1990 she was appointed to the Irish Olympic Medical Committee and has been the head Physiotherapist to the Irish Olympic Team for 5 Olympic Games, from Barcelona 1992 to Beijing 2008. Additionally, she has worked with the Irish Winter Olympic teams in Turin 2006 and Vancouver 2010. She has also served with 10 European Youth Olympic Squads. Marie-Elaine has a practice in Dublin, specializing in the treatment of musculoskeletal and sports injuries. She's a regular lecturer on undergraduate BSc and post-graduate MSc courses in Sports and Exercise Physiotherapy. She has written and published peer reviewed articles on injury prevention for athletes. She has been awarded Specialist Membership of the Irish Society of Chartered Physiotherapists in recognition of expertise and contribution to Sports Physiotherapy in Ireland.

Martin Haines MCSP, DipRGRT
Managing Director and Course Director of Intelligent Training Systems

Martin Haines is a remedial gymnast, recreational therapist and chartered physiotherapist. He has worked with 5 Olympic gold medalists, McLaren Formula 1 racing drivers, premiership footballers as well as international rugby players. He has also biomechanically tested over 4,000 people ranging from the sporting elite to recreational sportspeople. He has linked these outcomes with the work of McGill, Twomey, Taylor, Bergmark and others to create a unique biomechanical screening system. He works internationally as a consultant and heads up Intelligent Training Systems which runs courses to teach the biomechanics system his team has developed.

Colin Hayes BSc (Hons), MCSP, HPC, FHEA, PG Dip, PG Cert, FA Dip)
Course Lead & Senior Lecturer in Public Health and Clinical Sciences – University of Central Lancashire

Colin's experience in health and exercise spans three decades working at grass route level to Olympic level in sports conditioning and sports medicine. His expertise in health and exercise/rehabilitation has been sought from some of the leaders in the health and fitness industry in the UK. He lectures and takes part in research across a range of disciplines including physiotherapy, sports therapy and public health with a particular interest in therapeutic taping and clinical education development. He is currently writing and developing evidence led learning resources for taping interventions.

SPEAKERS:

Sanjiv Jari, BSc (Hons), MBChB, FRCS (Eng), FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon, Manchester (UK)

Sanjiv is a Consultant Lower Limb & Orthopaedic Sports Medicine Surgeon at Hope Hospital (University of Manchester Teaching Hospital) and at the Manchester Sports Medicine Clinic. He is an Honorary Clinical Lecturer in Orthopaedic & Trauma Surgery at the University of Manchester. Sanjiv was awarded the Fellowship of the Royal College of Surgeons in Trauma and Orthopaedic Surgery in 1999. In addition to his Medical and Surgical qualifications, Sanjiv has a BSc (Hons) in Anatomy and has a Sports Medicine Fellowship from the University of Indiana, USA. Following Sanjiv's training, he worked in the USA for a year with world renowned knee surgeon Dr Donald Shelbourne. He has set-up a dedicated knee rehabilitation and triage service in conjunction with specialist therapists, which includes biomechanical ligament assessment using KT-1000, a tool not generally available in the UK. Sanjiv lectures nationally and internationally on knee surgery and sports injuries.

Fergal McGoldrick MCh.FRCS Ed Orth, FRCSI, FFSEM

Consultant Orthopaedic Surgeon, (Ireland)

Fergal graduated from University College Dublin in 1982. He was awarded his F.R.C.S.I. in 1986; and his F.R.C.S. Orth. in 1990. His Masters Thesis in Growth Plate Pathophysiology, was awarded in 1990. In 2003, he became a Fellow of the Faculty of Sports and Exercise Medicine.

On completion of his Specialist Orthopaedic Training he was Lecturer in Orthopaedics at the R.C.S.I. He was a recipient of the R.C.S.I. Ethicon and Irish American Travelling Fellowships and has undertaken Fellowship and Specialist training in France and in the United States.

Fergal is a Consultant Orthopaedic Surgeon based at the Hermitage Medical Clinic, with attending privileges in Blackrock Clinic and Mount Carmel Hospital.

His special interests are large joint arthroplasty of the hip, knee and shoulder and treatment of sports related injuries of the three respective joints, with particular attention to arthroscopic techniques and management of early degenerative change in the younger adult.

Simon Shepard MCSP

Head Physiotherapy at Middlesex CCC and The Hospital of St John and St Elizabeth, London

Simon qualified from St Mary's Hospital, London in 1988. Since 1991 he has worked in professional sport, primarily with Middlesex CCC and The MCC. He has also worked with The London Towers Basketball Team, at The All England Badminton Championships and has worked on television shows such as Worlds Strongest Man, Superstars and Gladiators. Simon sits on the Executive Committee of Middlesex County Cricket Club. In 1992 Simon started Chancery Lane Physiotherapy (now know as Central Health) and has seen the facility grow into a leading clinic in The City of London. Over the past seven years Simon has overseen the development of therapy services at The Hospital of St John and St Elizabeth, and more recently has also taken on the role of Chief Executive of optima-life, the London based health and sports performance company.

Professor Graham N. Smith GradDipPhys FCSP DipTP CertED

Professor Graham N Smith is a rehabilitation and sports injury consultant, a Fellow of the Chartered Society of Physiotherapy and Chairman of the Society of Sports Therapists. He has an extensive background in the treatment, management and rehabilitation of injuries at all levels of the sporting spectrum. He is a visiting professor at Teesside University and an external Lecturer for the MSC in Sports Medicine at Trinity College, Dublin. He was responsible for setting up and running the Football Association National Rehabilitation Centre at Lilleshall and he has also worked with British Olympic and representative teams, as well as in professional football. Now, alongside working in his clinic in Glasgow and consultancy commitments, he lectures extensively nationally and internationally on the rehabilitation of musculoskeletal injuries and sports injury management.

CHANGING PERSPECTIVES™
Evidence Based Practice & Clinical Implications in
Musculoskeletal Therapy
SATURDAY 11th SEPTEMBER 2010
A one-day Conference

APPLICATION FORM

Please print clearly your name and contact details as these will be used on the delegate certificates. A receipt will be sent by return.

Title _____ **First Name** _____ **Surname** _____

Profession _____ **Grade** _____

TRAVEL DIRECTIONS TO HERMITAGE MEDICAL CLINIC DUBLIN

Directions from the City Centre:

From O'Connell Street Bridge in the city centre drive along the quays westbound) and follow signs for The West / N4 / M50. Take the exit for the N4 and when on the N4 move to left hand lane and follow signs for Liffey Valley Shopping Centre (this will be the first exit off the N4). Stay on the right side of the slip road.

Once you have reached the end of the slip road you will arrive at a roundabout. Take a right, bringing you under the N4. Please note that once you arrive at the first set of lights the immediate left is not accessible as it will bring you against emerging traffic.

Take the next left off the roundabout and gain access to the facility by taking a left at the next entrance.

Buses from Pearse St 25A, 66, 67A

Directions from the North side of the city e.g Blanchardstown:

Take the M50 Motorway southbound.

Drive through Toll Booth and take next exit signposted Exit 7 for N4 Sligo / The West / Lucan.

Take the exit for the N4 and when on the N4 move to left hand lane and follow signs for Liffey Valley Shopping Centre (this will be the first exit off the N4). Stay on the right side of the slip road.

Once you have reached the end of the slip road you will arrive at a roundabout. Take a right, bringing you under the N4. Please note that once you arrive at the first set of lights the immediate left is not accessible and it will bring you against emerging traffic.

Buses from Blanchardstown Centre 76A

Directions from the South side of the city e.g Dundrum:

Take the M50 Northbound. Take the exit for the N4 (signposted The West)

Keep to the left hand lane of the N4 and follow signs for Liffey Valley Shopping Centre (this will be the first exit off the N4). Stay on the right side of the slip road.

Once you have reached the end of the slip road you will arrive at a roundabout. Take a right, bringing you under the N4. Please note that once you arrive at the first set of lights the immediate left is not accessible as it will bring you against emerging traffic.

Take the next left off the roundabout and gain access to the facility by taking a left at the next entrance.

Directions from the Red Cow Roundabout:

Take the M50 exit Northbound (Airport exit also)

Take the first exit off the M50 Motorway, the N4 exit (signposted The West). Keep to the left side of the exit.

Follow signs for Liffey Valley Shopping Centre (this will be the first exit off the N4). Stay on the right side of the slip road.

Once you have reached the end of the slip road you will arrive at a roundabout. Take a right, bringing you under the N4. Please note that once you arrive at the first set of lights the immediate left is not accessible as it will bring you against emerging traffic.

Take the next left off the roundabout and gain access to the facility by taking a left at the next entrance.

Buses : Please note that the nearest bus stop for the Hermitage Medical Clinic (travelling west, from the city centre) is the Lucan Rd (Kings Hosp) bus stop. Please take the footbridge to the other side of the road, take a left turn and after approximately 1km you will come to a roundabout and the entrance to the Hermitage Medical Clinic is straight ahead. The Liffey Valley slip road bus stop is the nearest stop to the Hermitage Medical Clinic for those travelling from west Dublin. From this bus stop please walk straight down this road until you come to a set of traffic lights, take a left and the entrance to the Hermitage Medical Clinic is on your left.

Accommodation

The [Clarion Hotel](#) in Liffey Valley is available across the road from the Hermitage Medical Clinic. A [special rate](#) is available for delegates from the Hermitage Clinic. There are also Bed & Breakfasts which are situated nearby in Palmerstown and Lucan. Please contact reception for further details.

[Finnstown Country House Hotel](#) is located in Lucan, Co. Dublin. A special rate (€89.00 B&B based on 2 people sharing) is available for delegates attending the Conference.
